

# COVID-19 SAFE EQUIPMENT FITTING

Where a coach is required to fit a player for personal playing equipment, such as helmet or shoulder pads, please always follow the guidance below to ensure this is carried out safely.

- Equipment must be fitted outdoors.
- Strong hand hygiene should be used prior to equipment fitting and post equipment fitting. Disposable gloves can be worn but if so must be changed between each individual.
- Both the participant and fitter must wear a face covering.
- Time spent in close contact fitting equipment must be minimised where possible, and the majority of fitting actions should be completed by the wearer under distanced, verbal direction. Share the approved fitting videos and resources with participants beforehand to set expectations and minimise time spent.
- Where equipment of different sizes is tried on by an individual, all equipment tried on but not used by them must be thoroughly sanitised with appropriate disinfectant wipes or spray before being tried on by another participant or returned to storage.
- Equipment must not be shared between individuals in the same session, and all equipment used by participants and collected back by the clubs afterwards must also be thoroughly sanitised after use.
- Game pants, practice jerseys and bibs etc should not be shared. Any team issued practice or playing uniform must be thoroughly washed before being reissued.

Helmet fitting video: <https://www.youtube.com/watch?v=ZiOsmzNUk1M>

Shoulder pad fitting video: <https://www.youtube.com/watch?v=zLZ1vPBJrwQ>

1. Measure chest and record measurements
2. Measure shoulders and record measurements
3. Select pads
4. Put on pads
5. Secure straps and laces
6. Check for proper fit
7. Ensure coverage in front
8. Ensure coverage in back
